AERIAL NAVIGATION

Will Be Potent Factor in All
Future Tactics of Naval
Powers.

Fort Monroe, Va., Nov. 15. Aerial navigation proved yesterday that it is a factor which must be dealt with in the naval tactics of the world's future, if the successful flight made by Eugene B. Ely, in a Curtiss biplane from the deck of the cruiser Birmingham can be taken as a criterion. From Hampton Roads, the scene 43 years ago of another epoch in the history of naval warfare, when an ironclad proved its superiority over the former type of fighting vessel, the aviator yesterday afternoon flew across the lower end of Chesapeake Bay, landing on the shore opposite from the fort.

In weather conditions unfavorable for flying, the daring birdman, shortly after 3 o'clock, glided from the platform erected on the front of the big cruiser, swooped down until he touched the water, then rose rapidly into the misty air of the lower bay, and was off in the direction of the Atlantic. Five minutes after having taken his sudden farewell of the Birmingham he was a lost speck on the eastern horizon and an instant later had landed safely on Willoughby Spit.

The impact with which the big machine took the water after its 37-foot drop from the front of the cruiser scared one of the propeller blades as though a heavy, coarse saw had gone along its edge, and a small piece was split from the blade. But for an instant was the speed of the aeroplane lessened and it darted away with express train rapidity on its victorious flight.

Intermittent throughout the day, several small hail showers and a continuous fog almost compelled the aviator to postpone his attempt. But he was determined to prove, as said after the flight that he could accomplish more than had been expected of him.

Furthermore, he did not wait for the Birmingham to get in motion, which would have added to his momentum and thus have aided him greatly, but, seizing an opportune moment between showers, he was off before those on the other vessels stationed at various points near by were aware of his presence. He was followed and assisted him in case of need were aware of his presence. He was followed and assisted him in case of need were aware of his presence.

fly proved that it is possible to fly safely from a ship, and asserted that it would be an easy matter for an aeroplane to alight on a vessel, either while the latter was moving or standing still. Naval experts who witnessed the flight expressed their belief that the navies of the world in the future must take the aeroplane into consideration when mapping out plans of action.

Captain Washington I. Chambers, who had been detailed by the navy department as chairman of a board for aeronautical investigation, declared that the flight was more than he anticipated, and he is confident that the time is near when all scout cruisers will be equipped with a number of aeroplanes. They would not be for battleship use, he explained, but for scout duty in connection with the scout cruisers of the navy.

The distance which Mr. Ely flew was nearly five miles. The Birmingham was lying in the road only a quarter of a mile from the Hotel Chamberlain but in making his flight to Willoughby Spit he flew in a curve so that while the exact distance could not be determined, it is believed he covered almost five miles. It was 3:16 o'clock when he took to the air; five minutes later he was safe on the solid soil of Virginia, a few miles north of Norfolk. Mr. Ely, after being brought back on a launch and placed aboard the Roe, said he had conquered his fears long enough to remain over it in a fog and accomplished his purpose.

When he struck the water, on diving off the 33-foot platform erected on the bow of the Birmingham, salt water dashed into his face and goggles, so that he could not see for several minutes in which direction he was going. He had planned to take a somewhat different course from that which he actually followed and land a little further to the north. The highest height he attained was estimated at about 500 feet.

His striking of the water, he said afterwards, was due to a slight miscalculation. He had planned before he left the incline on the Birmingham

ham to drop near the water, so as to get the momentum which he wanted to carry him upwards, but he overreached the mark slightly. Mr. Ely went back to Norfolk immediately after the flight, and if weather conditions are favorable will attempt a flight over the city. The following day he may show his prowess of the air in a flight he will give at Raleigh.

It is understood that Mr. Ely by his flight has won a \$500 prize offered by John Barry Ryan for the first flight of a mile or more from any ship to land.

Further experiments of a similar nature in the near future by the navy department it is believed, will be conducted.

Trials for Prisoners.

The first assignment of first degree murder cases in connection with the lynching of Carl Etherington in this city on the night of July 8, for trial in the common pleas court, commencing Monday, Dec. 5, has been made by Prosecutor Phil. B. Smythe. The assignment includes the cases of the State of Ohio against: Montelle Watha, Frank Graef, Edward Woodard, Levi Valentine, Clarence Timmons, William McKinley, William Feurriegel, alias "Doggie" Feurriegel, Elmer Seary, Robert Cleveland, Edgar Owens, Joe Bush, Lewis Bolton and Quincy Sutley. The prosecutor will see to it that all the men mentioned in the assignment are notified that their cases will be heard and they will be requested to make preparations for the same. The prosecutor is unable to say at this time whether or not the assistant attorney general will assist him in the prosecution of the cases.

MYSTERY SURROUNDS SHOOTING

Wife of Victim Arrested
in Columbus at Husband's Bier

FATHER IS ALSO TAKEN

Woman Claims She Loved Her
Husband Despite Their
Frequent Quarrels.

Columbus, Nov. 15.—While she sat in black mourning over the bier of her husband, John E. Mulholland, aged 31, in the home of the latter's mother, Mrs. Mary Mulholland, 122 South Belle street, Mrs. Ertie Mulholland was arrested at 8 o'clock last evening by Detectives Nugent and Nolan. The police had been notified that an affidavit at Silverton, W. Va., charged Mrs. Mulholland and her brother, A. L. Lockhart, with first degree murder for the alleged killing of Mulholland, who was reported to have slain himself.

Lockhart was in an adjoining room when the two detectives arrived, and he accompanied his sister to the police station, where both were locked in cells, after professing they were innocent. Both asserted Mulholland was intoxicated and that following a quarrel with his wife Ertie, he shot himself with a shotgun.

To spare Mrs. Mulholland, who seemed about to collapse from worry over her husband's death, the detectives did not inform her of the murder charges pending against her in Silverton when they entered the death chamber in Belle street. Instead, Nugent announced they had come to take Mrs. Mulholland to the police station to make a statement required when dead bodies are removed from one state to another.

It had been expected that the woman would collapse when told of the murder charge against her, but she coolly denied it at the police station and then gave a clear unemotional recital of a quarrel Friday with her husband, and of the subsequent shooting.

After chasing her out of her home near Ravenswood, W. Va., Mrs. Mulholland asserted she escaped a murderous bullet intended for her by re-entering the house. As she did so she heard the sound of another shot, and upon entering the yard with her father, who is now under arrest in West Virginia, and her brother, Mrs. Mulholland said she found her husband lying dead with a gaping wound in his right jaw. A shotgun was beside the body. This was the weapon used to commit suicide, the wife asserted.

"I loved my husband, despite the trouble he gave me by drinking to excess," said Mrs. Mulholland, upon completing her story. "I tried to be a good wife to him, and unless they take me back to West Virginia I will stay here and attend the funeral, which will be held tomorrow or the next day."

When informed that she would be detained at police headquarters until the arrival of Sheriff McGowan of Jackson county, W. Va., with a warrant, Mrs. Mulholland begged that she be given permission to attend the funeral. The request will be referred to Police Chief Carter today.

The coroner's verdict in Jackson county holds that Mulholland came to his death by a bullet wound administered by an unknown hand. This was the basis of a first degree murder affidavit sworn to by the prosecuting attorney of Jackson county.

Although Mrs. Mulholland and her brother say the man used a shotgun to end his life, both admit there were no powder marks or burns around the wound. Police officials assert if the case had been one of suicide, the dead man's face would have been horribly scorched, as the gun could not have been far enough away to prevent it. Mrs. Mulholland and her brother were unable to explain this.

St. Petersburg, Nov. 15.—Messengers received today from Koyelst indicate that Count Leo Tolstoy will probably remove shortly to Canada to join the Doukhobors, the religious fanatics, unless the poignant grief of his wife induces him to return home.

THIS KENTUCKY DESPERADO IS FINALLY KILLED

Lexington, Ky., Nov. 15.—"Red Jack" Noble, who shot and killed Jailer Wesley Turner of Breathitt county in Jackson last Tuesday night, was himself shot to death by a sheriff's posse in Knott county late yesterday.

Noble, to that effect was received here last night. Only meager details have been received, but it is stated that when the posse, led by the sheriff of Knott county, called upon Noble to surrender, he made a demonstration of resistance and was promptly riddled with bullets by members of the posse. Noble, aggregating \$700 had been offered by the authorities of Breathitt county for the capture of Noble dead or alive.

Noble, who was but 22 years of age, had previously killed three men. After being shot down Jailer Turner he escaped into the mountains and several times and then searching for him in the mountains. Noble was first heard from in the Lost Creek section of Breathitt county, where for two days he was understood to have been under the protection of armed bandits. His last message to the county authorities was:

"I will go through the mountains and give each one the right to keep the liquor question off."

"I will put the law in early and will press it for justice. There has been a change in sentiment on the liquor question since the enactment of the Rose law and there seems to be a strong feeling that saloons under a strict and proper regulation would be for more preferable than the boot-legging and speak-easy traffic which exists to a considerable extent in territory supposed to be dry."

"It has been proven in dry counties that regulation by the state is needed. The constitution of Ohio will not allow the legalizing of the

COUNTESS TOLSTOI

writings have been in direct violation of the church teachings.

Tolstoy has found a temporary refuge in the convent at Koyelst, where his favorite sister, Maria, has been a nun for a number of years. His daughter, Alexandra, and his wife, too, have joined him there. It is probable that his flight, despite its suddenness, was long contemplated. His wife and son, who have been managing his estates, have raised rents and reduced wages to the point of almost begging the tenants. This was in direct opposition to the tearful prayers of Tolstoy, who believed in equality, and who wished his tenants to have as much as himself. Then, too, in his spurning of money, Tolstoy refused to copyright an unpublished novel, for which he had been offered an immense sum, and declined to receive the Nobel prize when it was offered him. This conduct further estranged him from his family.

The convent where Tolstoy has taken refuge is one of the severest in the world. The 500 nuns do all the work, tilling the soil, building houses, shoeing horses and attending the flocks.

If Tolstoy decides to carry out his determination to join the Doukhobors in Canada, it is probable the government will interpose no objection. Tolstoy's writings have made him feared by the authorities, but he was too powerful to be exiled.

St. Louis, Nov. 15.—Victor Berger admitted today that he is after Samuel Gompers. He gives Gompers credit for magnificent work in building up the American Federation of Labor, but charges him with a leaning toward Catholicism, Bryanism and Rooseveltism. He says a man more in line with today's ideas is needed at the head of the Federation.

London, Nov. 15.—Parliament reassembled today on the verge of what may prove a political revolution following today's cabinet meeting. The sole issue will be a proposition to kill the House of Lords veto power. PLAYER CLEARED BY JURY

Thomas McCoy Exonerated From Criminal
Blame at Wheeling

A FOOTBALL FATALITY

Followed by Criminal Proceedings
Was Only Case of Its Kind
on Record.

Wheeling, W. Va., Nov. 15.—We find that the evidence in this case is conflicting. Therefore, we believe that Rudolph Munk came to his death on November 12, 1910, by colliding with Thomas McCoy.

This verdict brought in by the coroner's jury which heard the evidence last night at the inquest held by Coroner Rogers, into the death of Captain Rudolph Munk, of the West Virginia football team, exonerates McCoy from criminal blame and practically ends the celebrated case. This is said to be the only criminal proceedings that ever followed a football fatality.

McCoy did not appear at the inquest. He was represented by Attorney Day of Canton, O., while McCoy's father occupied a seat as a spectator.

So far as can be learned McCoy did not come to Wheeling, efforts having been made to locate him but in vain.

WILL QUIT PLAYING.

Canton, O., Nov. 15.—The death of Captain Rudolph Munk, of the West Virginia University football team, from injuries sustained Saturday in a game with Bethany college, mean the close of the gridiron career of Thomas McCoy of Canton, star end of the Bethany squad.

McCoy was exonerated last night by a coroner's jury at Wheeling of the charge of first degree murder in the death of Captain Munk today announced that he would not play any more football. McCoy said:

"I feel at present as if I could never watch another game of football, let alone play one. Where I have never hesitated to tackle an opposing player or block any interference I would now be afraid to do."

"I would always feel that in an instant the cheers of the crowd might change from 'What's the matter with McCoy? He's all right' to 'Murderer, murderer.' I'm done with the game."

"I'm thankful that Tom is going to quit playing," said his mother, who has opposed the game ever since he won a place on the Canton high school football team five years ago.

AUDITORIUM IS AGAIN HOME FOR THE LEGITIMATE

Every arrangement has been completed for the opening of the season of legitimate attractions at the Auditorium theatre on Wednesday evening and every part of the house has been thoroughly renovated and redecorated.

M. Shea, the new manager, has been in charge of the house for the past two weeks and has assembled a large corps of assistants and every thing possible has been done to put the theatre in a first class condition. The theatre was turned over to the manager on Monday and they have worked with him and his staff for the past week and all portions are ready for a shift.

The work started in the basement and the last gallery has now been finished and every seat has been brought to light. All the best features of the theatre have been brought to light and the theatre is now ready for the season. The work started in the basement and the last gallery has now been finished and every seat has been brought to light. All the best features of the theatre have been brought to light and the theatre is now ready for the season.

When the "house cleaning" seems to have created the greatest havoc on the stage and in the dressing rooms. The latter have all been repainted and refurnished and running water has been installed in each. The stage has been scrubbed. It now looks like the old Dutch housewife's kitchen floor and the front has been painted and stained.

An orchestra of five pieces has been secured as the regular house orchestra and will be under the direction of W. H. Reynolds. Mr. Reynolds' talents as a musician need no listing for Newark people to know them as he has already established an enviable reputation. Prof. William C. Schmidt will be pianist. The house orchestra will be augmented from time to time by extra instruments and for "A Winning Miss" will number nine pieces.

In the front of the house for the first couple weeks Manager Shea will have as his assistant his brother, Ralph Shea, who is treasurer of the theatre at Lorain, one of Mr. Shea's many houses.

The Auditorium theatre is now one of the houses that make up the Northern Ohio Theatrical circuit of which Mr. Shea is general manager, and with such a formidable array of theatres to be catered to, Newark will draw some of the latest and best attractions of the season in spite of the fact that the season is now well started.

The management today gave out as some of the certain offerings that he has booked which will show the par excellence of future Newark shows: "Madame X," "Merry Widow," "Seven Days," "Girl in the Taxi," "My Cinderella Girl," "The Jolly Bachelors," Jimmy Powers in "Havana," "Madame Sherry," "Alma Where Do You Live?" "The Deserters," with Helen Ware in the lead, a show which is now creating a sensation in New York. "The Commuters," James Forbes' new play, and there will also be a number of stock companies. The repertoire of companies seen here will be the large companies that heretofore have been seen only in the east and include Kirk-Browne, Cutter company, Helen

cured Mrs. C. C. Gokey, of a stubborn case of heart disease, such as thousands are now suffering with. Read what she says:

"Before I began taking Dr. Miles' Heart Remedy I had been suffering from heart trouble for over five years. I had grown so weak that it was impossible for me to do thirty minutes work in a whole day. I suffered intense pains in my left side and under the left shoulder blade. I could not sleep on the left side, and was so short of breath that I thought I should never be able to take a full breath again. The last evening I was lying in bed and was so tired that I could not get up to go to the bathroom. I had scarcely taken a half-dose of the Heart Remedy before I could see a marked change in my condition. I began to sleep without a good anodyne, and my appetite improved. When I had taken six bottles I was completely cured."

Three Great Shows at One Time in Chicago.

One of the most valuable features of the International Live Stock exposition at Chicago this year, and which takes place on the dates of November 26th to December 3rd, inclusive, is that it occurs at the same time at which the "Land Show" and "Apple Show" are held. These great exhibitions, presented at the same time in the great city of Chicago, that wonderful metropolis of the west, and the food depot of the world, offers an unprecedented opportunity to everyone who is interested in farming, breeding, the development of land, and the apple-growing industry, such as has never occurred before, to pay a visit to Chicago at this time. Apart from the pleasures of the trip, they will be able to kill three birds with one stone, as well as do their shopping and domestic purchasing at the most interesting season of the year, when the stores are filled with everything that appeals to everybody, in addition to taking away with them a fund of practical knowledge that will be of incalculable value in after years.

GO TO THE RESCUE.

Don't Wait Till It's Too Late—Follow the Example of a Newark Citizen.

Rescue the aching back. If it keeps on aching, trouble comes.

Backache is kidney ache. If you neglect the kidneys' warning.

Look out for urinary trouble—Diabetes.

This Newark citizen will show you how to go to the rescue.

Charles E. Walton, 74 South Second street, Newark, O., says: "I can vouch for the merits of Doan's Kidney Pills, as I gave them a thorough test. My kidneys were inactive for years and caused a dull ache across the small of my back. There was much lameness through my loins and the constant standing which my work requires aggravated the trouble. After various remedies had failed to help me, I used Doan's Kidney Pills and they brought such great relief that I heartily endorse them. I willingly confirm my former testimonial at this time."

HEART and HOME TALKS by Barbara Boyd

Little Problems of The Home.

Sidetracking Love.

SIDETRACKING love is not simply a matter of fixing a switch and letting Cupid's accommodation, with its baggage car overflowing with roses, bows and arrows, and other dress and business accessories of the mischievous little god run off on a siding while life's express rushes by. It is not so deliberate an act as this. If it were, few would do it, for the average man and woman do not deliberately make up their minds to get along without love.

Sidetracking love is a much slower, less conscious process. The deed is accomplished often before it is realized. It is a matter of doing numberless little things, which one wakes up after awhile to discover has resulted in one big thing not to be desired. But the harm is done, and frequently it cannot be undone.

The busy man sidetracks love when he puts away the thought of marriage. "There's plenty of time yet," he argues, "and just now I must get ahead in business." And so he sidetracks love, for a brief while, as he thinks. But as he grows older his heart grows colder. He becomes like the business in which he is absorbed, cold, unfeeling. The fire of love cannot now be easily lighted, and before he knows it, love becomes an impossibility in life for him.

The selfish man thinks of the responsibilities love brings, of the anxieties and burdens that come in its wake. He decides to keep his freedom a little longer, as he puts it. He believes in a home, a wife and children, and he intends some day to marry. But he will give himself a few more care-free years. But the love of freedom, of irresponsibility, grows on him. The prospect of the cares of wife, children and home looks less and less alluring as the

years go by. And so he slips into a lonely old age before he knows it. Love as sidetracked so far back he cannot now return. The track is filled between with too much impedimenta.

The business woman who puts work in the place of her heart, and gradually becomes cold, and hard, and cynical, is sidetracking love. Her heart shrivels and she wakes up some day to discover with a little shiver that appeals to her affections make no impression upon her.

The ambitious woman sidetracks love when she yields little by little to the thought that luxury or dress, or social position, will give her as much happiness as love. "Love is a cottage," she thinks, "will be a terribly commonplace existence, whereas with plenty of money, a beautiful home, opportunities to travel, I never can have a dull moment." But the fallacy of this is shown daily in the bored, listless faces of women who have sidetracked love for these banal things of the world.

For, after all, what is one doing when she sidetracks love? He is cutting out of life one of its most vital forces. "He only lives who loves," is a truth of the ages. Love is the warm life-blood of the world. When one takes it out of his life, he grows hard, cold, dead. He is stepping out of the current of one of the great forces of the universe. And because man is not all of the earth, he cannot be satisfied with earth-made things. His spirit hungers for its rightful heritage of the divine. And the one who sidetracks love will come to the time when he would give all be possessions of the unsatisfying things of the earth which he has gathered about him for the pure, sweet joys of love.

But a Human Hair Root Showing Dandruff Germs at Work

WYETH'S SAGE AND SULPHUR HAIR REMEDY

Kills the Dandruff Germ and Makes the Hair Grow Stops Falling Hair and Removes Dandruff

FEW people are aware of the number of Dandruff Germs that infest the human hair and scalp. The germs which locate themselves in the follicle or sack which envelopes the root of the hair, spend a lazy existence in sucking up the juices which should go to keep life and strength in the hair. These germs cannot be seen by the naked eye, but with a magnifying glass of from 300 to 400 diameters the spores of this hair destroyer may be seen in masses, clinging to the hair.

DANDRUFF, ITCHING OF THE SCALP AND FALLING HAIR are a sure sign of destructive germs.

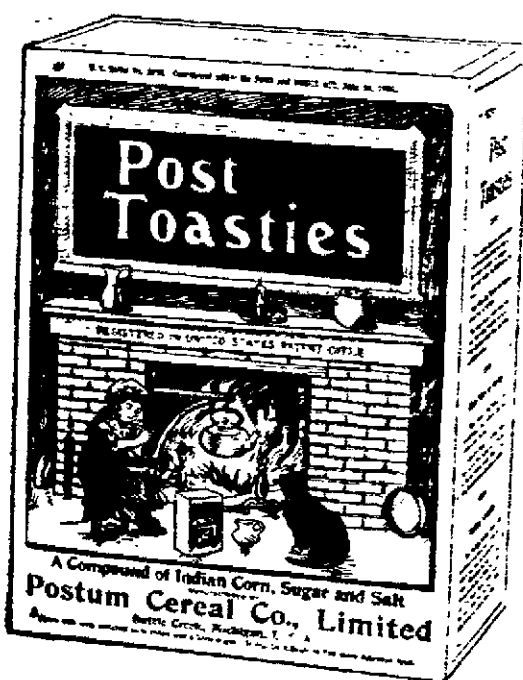

Wyeth's Sage and Sulphur Hair Remedy Kills the Dandruff Germ when applied to the hair, and prevents the curse of Baldness. It also restores faded or gray hair to its natural color and beauty. No matter how gray or how long it has been gray, it will restore it to its natural color and keep it soft, glossy and beautiful. Don't experiment with old-fashioned hair dyes, but save and restore your hair by using Wyeth's Sage and Sulphur Hair Remedy.

THE ADVOCATE'S CONGRATULATIONS

The Advocate has been the recipient of many compliments and encomiums for the clean and honorable manner in which it conducted the recent campaign. It has also received congratulations without number over the success of its efforts in presenting the campaign issues and the merits of the Democratic candidates without assailing their Republican opponents. These evidences of appreciation are a gratification for they show a realization that the paper's appeal to intelligent, fair-minded people has been productive of success. Taking every thing into consideration the encomiums received by the Advocate are all the more appreciated because they come from every walk in life, and we are sure our readers will bear with us and not charge it up to egotism when we state that the course pursued has made the paper hundreds of warm friends all over Licking county, and prestige throughout the state.

Terrible Suffering

Eczema An Over Baby's Body.
"When my baby was four months old his face broke out with eczema, and sixteen months of age, his face, hands and arms were in a dreadful state. The eczema spread all over his body. HENCE THESE TEARS.

(New York World)
For myself I have no regrets over defeat. For my State and its people I am sorry, because I believe that the reversal of the protective policy will result in great harm.
We have been expecting something of the kind, but it is a surprise to find this exhibition of pious resignation for self and of true Christian sympathy for others attributed to Senator Nathan B. Scott of West Virginia. He is about the last one of the Old Guard who would have been suspected of such a moving expression.
Mr. Scott is the patriot who fixed up the tariff schedule of the Payne-Adlicher tariff to suit himself. Being in the business, he had a basket of glassware carried into the Senate Chamber and with a water-pitcher in one hand and a celer-dish in the other he pleaded against any reduction of the tariff subsidy which he had long enjoyed. There were veteran Republicans in the chamber on that occasion who found this display of Senatorial commercialism almost too much for their lacerated feelings. Mr. Scott's nerves, however, remained unshaken until this week.
The gentleman is unduly alarmed. There is to be no reversal of the protective policy. We have had a protective tariff since Washington's day. No doubt we shall have one for generations to come. The only policy respecting the tariff that has been reversed is that of extortion, deception and perfidy.
No political party ever endorsed a tariff for plunder. No protectionist of good character ever proposed robbery of the people. From Hamilton and Clay to Blaine, McKinley and Taft the justification for tariff taxation

Of 21 Years Placed on Ticket as a Candidate, Wins Out by Margin of Nine Votes.

Zanesville, Nov. 15.—One of the luckiest men in Muskingum county is Vincent Hollingsworth, aged 21 years, and a Democrat. He was placed on the Democratic county ticket by the committee for survivor, merely to fill out the ticket, and today the official count reveals his election to the \$2700-a-year office over Engineer Donald Geddes by a majority of 9 votes.
Before getting Hollingsworth's consent to make the race for the office three other young Democratic survivors refused the committee's proffer.
Governor Harmon's official majority in the county is 1617.

LOVELY COMPLEXION

Read what a Kansas woman says: "I had been doctoring a year for stomach trouble and found nothing that did as much good as MI-O-NA. I only have the second box and they have relieved all pain in my stomach. For stomach trouble or indigestion MI-O-NA can't be beaten. MI-O-NA has done a world of good for me when doctors failed." INDIGESTION AND STOMACH MISERY ENDS

Nothing will remain undigested or sour on your stomach if you will take a little Diapiesin occasionally. This powerful digestive and antacid, though as harmless and pleasant as candy, will digest and prepare for assimilation into the blood all the food you can eat.
Eat what your stomach craves, without the slightest fear of indigestion or that you will be bothered with sour risings, Belching, Gas on Stomach, Heartburn, Headaches from stomach, Nausea, Bad Breath, Water Brash or a feeling like you had swallowed a lump of lead, or other disagreeable miseries. Should you be suffering now from any stomach disorder you can get relief within five minutes.
If you will get from your pharmacist a recent case of Diapiesin you could always go to the table with a hearty appetite, and your meals would taste good, because you would know there would be no indigestion or Sleepless nights or Headaches or Stomach misery all the next day; and, besides, you would not need laxatives or liver pills to keep your stomach and bowels clean and fresh.
Diapiesin can be obtained from your druggist, and contains more than sufficient to thoroughly cure the worst case of Indigestion or Dyspepsia. There is nothing better for Gas on the Stomach or sour odors from the stomach or to cure a Stomach Headache.

SPEAKERSHIP OF THE OHIO HOUSE BEING DISCUSSED

Columbus, Nov. 15.—Speakership stock became very active today. Candidates are popping up on all sides. Representative William T. Smith of Marion, one of the most active of last session's minority, came to this city to learn whether it was true that Governor Harmon did not propose to mix into the organization of the Assembly other than to keep Garber out. After an interview with the Governor he announced his candidacy formally, and will send letters to his fellow Democrats asking for support.
Smith's entrance is accepted as meaning that Representative Arthur P. Black of Ashland, will not enter the race. It may also have the effect of preventing the entrance of Representative Price Russell of Wayne.
A tentative announcement of candidacy was also made by Representative Harry Goddard of Wyandotte, who was a visitor, and by B. F. Kimble, who barely pulled through in Adams county. The stock of Representative Cyrus B. Winters of Erie, who was the Democratic floor leader last session, is not as high as it was, a fact indicated by the numerous candidates that have appeared, in addition to these already. Representative Vining of Mercer, and Wyman of Shelby, are being backed by their friends.

WILL RECRUIT THE G. A. R. POSTS OVER THE STATE

Lemert Post, No. 71, G. A. R. of this city, which at one time was one of the largest G. A. R. posts in the state, has rapidly decreased in membership during the past several years. At one time the Post numbered nearly three hundred members while at the present time it is not much more than half that number. There are still many old veterans of the Civil War who have not joined the Grand Army of the Republic, but now that they are getting old they are more inclined to companionship with their old comrades and are coming into the fold of the organization. On this account the organization is growing rapidly in numbers and the leading one in the country. It is now second, New York being first. A general order has been sent out by General H. A. Axline, Commander of the Ohio Department, urging the posts to activity in the matter of recruiting the veterans who have not become members. There are about 22,500 members in Ohio, but mortality is high among them because of the advanced average age. Last year about 1,300 members died and the mortality this year may reach 1,500.

We are consequently pleased to be able to state that the board that will give this most important matter the attention it deserves, is already appointed, and composed of competent, unprejudiced men whose appointments were not influenced by either the East Main street appraisers or by ourselves.

C. E. LINEHAN.
C. E. Linehan, aged 55 years, died Monday morning of pneumonia. He was well known in Newark having frequently visited here. He leaves six children, his wife having died several years ago. INFANT'S DEATH.

The father was immediately notified by telegram and he arrived in Portsmouth Monday. The body will be taken to the home of Jacob Pyles, 711 Lawson street, Portsmouth. The burial will probably take place in Portsmouth. — Portsmouth Times.

FUNERAL OF SAMUEL FRAD.
The body of Samuel Frad, who was killed in an auto accident near Chillicothe Sunday morning, was taken to Zanesville on an interurban car Tuesday morning, accompanied by a large number of friends and relatives. The body was buried by the side of his sister, Lena, who died a short time ago.

LIQUID CURES ECZEMA WHERE SALVES FAIL.
In regard to skin diseases, medical authorities are now agreed on this: Don't imprison the disease germs in your skin by the use of greasy salves, and thus encourage them to multiply. A true cure of all eczematous diseases can be brought about only by using the healing agents in the form of a liquid.

WASH THE GERMS OUT.
A simple wash: A compound of Oil of Wintergreen, Thymol and other ingredients as compounded in the D. D. D. Prescription. This penetrates to the disease germs and destroys them, then soothes and heals the skin as nothing else has ever done. A 25 cent trial bottle will start the cure and give you instant relief. Frank D. Oven Stew With Potatoes—Cut two

or more pounds of shin of beef in two inch squares. Skim and melt the marrow from the sawed bone and quickly brown it in the meat, one diced carrot and one chopped onion. Dredge well with flour and salt, add coloring or a little browned flour to color the gravy, two whole cloves, a half cupful of tomato. Put the deep covered kettle in a moderate oven for four hours, adding diced potatoes an hour before it is finished.

Fruit Pudding—It pays to make sufficient fruit pudding at one time to serve for several dinners. Dividing the batter between several smaller covered molds. Mix two cupfuls and a half of sifted flour one teaspoonful of sifted baking soda one teaspoonful each of cinnamon, allspice, mace and salt and one teaspoonful of baking powder. Cut fine, six figs one cupful seeded raisins, one-quarter of a cupful of citron and a half cupful of coarsely chopped nut meats. Flour all slightly. To the mixture add one cupful of molasses, one cupful of milk and a generous half cupful of soft butter. When well mixed add fruit and nuts and two-thirds fill well-greased molds. Steam for from two or three hours according to the size of the mold. Serve with either hard or soft sauce.

Try This Home-Made Cough Remedy

Costs Little, But Does the Work Quickly, or Money Refunded.

Mix one pint of granulated sugar with 1/2 pint of warm water, and stir for 2 minutes. Put 2 1/2 ounces of Pinex (fifty cents' worth) in a pint bottle, then add the Sugar Syrup. Take a teaspoonful every one, two or three hours.

You will find that this simple remedy takes hold of a cough more quickly than anything else you ever used. Usually ends a deep-seated cough inside of 24 hours. Splendid, too, for whooping cough, chest pains, bronchitis and other throat troubles. It stimulates the appetite and is slightly laxative, which helps end a cough. This recipe makes more and better cough syrup than you could buy for \$2.50. It keeps perfectly and tastes pleasant.

Pinex is the most valuable concentrated compound of Norway white pine extract, and is rich in guaiacol and all the natural pine elements which are so healing to the membranes. Other preparations will not work in this formula.

This plan of making cough syrup with Pinex and Sugar Syrup (or lar throughout the United States and Canada, that it is often imitated. But the old, successful formula has never been equalled.

A guarantee of absolute satisfaction, or money promptly refunded, goes with this recipe. Your druggist has Pinex or will get it for you. If not, send to The Pinex Co., Ft. Wayne, Ind.

AMUSEMENTS

At the Auditorium.
It might be well to know that although a dressmaker's convention is not being held in this city, there is a place where the feminine contingent can go to view the latest creations of the season.

The feature of this exhibit is sixteen gowns whose aggregate sum cost wholesale in the vicinity of four thousand, nine hundred dollars, or from two hundred and fifty to three hundred and fifty dollars apiece. These gowns are a work of art, and worth any woman's time to feast her eyes upon. They can be seen here on Wednesday, Nov. 16 at the Auditorium when "A Winning Miss," the real musical comedy comes to your city. The gowns will be worn by sixteen of the prettiest show girls on the road, called "The Christy Girls," and just named because of their fascinating beauty and divine forms. "A Winning Miss" is not of the ordinary type of musical show, but is based on the topical divorce question and involves some of the most prominent people of the present time. The company is sixty in number, and is headed by that irresistible comedian, Mr. Max Bloom of "Mayor of Tokio," and "Sunny Side of Broadway" fame. The music is of that dreamy whistlable type and the kind that appeals. Owing to the fact that seats are now on sale and selling fast, it might be well to secure your reservation well in advance.

At the Orpheum.
A very good show may be seen at the popular Arcade theater this week. The patrons of that theater who like acts of novelty and substance can have their fill. The low comedian does not appear—that doesn't mean that there is no comedy, but that it's of the more

subdued kind and of finer grain than that of the rip-roaring order. From an artistic standpoint the "Gypsy Wayfarers," the headliners, present probably the prettiest act of its kind seen here in many months. The company, a large one for a vaudeville attraction, is splendidly voiced and the singing alone is worth the price of admission. They have an excellent scenic outfit and electrical effects, and those persons who like the thing of "class," will enjoy the Wayfarers, as the idea is a pretty one and it cannot help but please you. Other novelties on the bill are Billie Hurst and Miss Maude Kelcey in their clean and most refined musical comedy skit, introducing singing and talking, who will also please you. Eddie Gardner, the eccentric juggler and dancer, who keeps the hair up in the air and makes you laugh, and John Zauboulakis, the novelty clay modeler and musician will entertain you with something new in his line. Orpheumscope a very pretty story.

"Alias Jimmy Valentine."
One of the technical objections that has been made against that very successful detective-thief drama, "Alias Jimmy Valentine," which will be seen for the first time in this city at the Auditorium theatre next Friday, November 18, is that the methods its leading character uses in the opening of bank safes, without tools or the combination, but merely by the sense of touch, is nowadays out of vogue. A few years ago the police records had some mention of young men of burglarious instincts gifted with fingertips so sensitive that they could perform this seemingly impossible task, but today the physicians stethoscope is the first aid to the safe-opener.

Knowledge is power in everything from greasing a wagon to making an engine.

The uncertainties of life are pretty sure to happen.

The whole eclipse lasts a little more than three hours from beginning to end.

NEGRO SPIRITED AWAY FROM MOB

Asbury Park, Nov. 15.—While a determined mob stood a few blocks from the local jail early today ready to prevent the removal of Thomas Williams from the town it was outwitted by Coroner Purdy. The mob threatened to lynch Williams, who is charged with the murder of a nine-year-old girl.

While the police chief made a speech to the crowd an auto rushed to the rear door of the jail and several detectives hustled the negro into it. The machine passed the crowd with the negro hidden in the bottom. In an hour he was in jail in Freehold.

ARRANGING FOR THE CONVENTION OF Y. M. C. A. BOYS

Noted Speakers From All Over the Country Will Be Present to Participate in Program.

Preparations are being made for the Ohio Boy's convention that meets under the auspices of the Y. M. C. A. state committee. The Boy's department committee of the Newark association has charge of the general local arrangements. Ed. M. Larason, Rev. J. A. Bennett and Prof. W. E. Painter compose the committee. The date of the convention is November 25-26 and 27, being Friday, Saturday and Sunday following Thanksgiving. From three to four hundred boys will be in attendance from the thirty-seven city, three county and two of the railroad associations.

The convention program will be a fine one. Some of the leading experts on boy life and problems and exponents of successful work among boys for moral, mental and physical good will be present. Among them will be R. A. Waite of New York, Dr. Winfield S. Hall of Chicago University, noted as an authority on the physical life and problems of the adolescent boy; Matthew D. Cracker of Cleveland, one of the leaders in organizing successful work among boys and the originator of the New York to Chicago relay race two years ago. The race was finely organized and handled like a piece of military work, the boys making better than schedule time, and not a hitch night or day, while the message sped on its way. Mr. Tom Laubham of Medina county, who has done an unusual work in organizing boys of the rural communities; Mr. C.

C. Hatfield, the editor of "Rural Manhood," Mr. Jesse Vickery of Bellevue, and Mr. Ed. S. Connor of Cleveland, coach of Lincoln High school.

The program includes a special address by Dr. Winfield S. Hall, M. D., of Chicago, Sunday afternoon that will be invaluable to every adolescent boy. Admission will be for all boys 12 to 18 years of age. It is hoped that the High school auditorium will be available for this meeting and that fully a thousand boys will be there.

After the afternoon session of Friday the ladies of the Newark churches will give a complimentary supper to the convention delegates. This will be followed by a program. President Hunt of Denison presiding, and then a trip to the A. H. Heisey company's splendid factory to see how table ware is made of glass.

The boys will be entertained in the Newark homes and are likely to prove very pleasant guests though they will not have much time for visiting, the convention sessions keeping them pretty busy. Newark will get a favorable hearing in hundreds of Ohio homes after this convention of boys.

Fresh Air in Winter

In winter, it is hard to get fresh air in certain rooms. Some rooms in a house are usually colder than others, and if you open the windows it is hard again to heat the room properly.

If you keep the windows closed you don't get fresh air; if you keep them open you cannot quickly reheat the room. The

**PERFECTION
SMOKELESS
OIL HEATER**

Absolutely smokeless and odorless

solves the difficulty. You can leave the windows in a room open all day in winter, and when you close them apply a match to a Perfection Oil Heater and heat the room to any temperature you desire in a few minutes.

The Perfection Oil Heater is finished in Japan or nickel. It burns for nine hours. It has a cool handle and a damper top. It has an automatic locking flame spreader, which prevents the wick from being turned high enough to smoke, and is easy to remove and drop back so that the wick can be quickly cleaned. An indicator always shows amount of oil in the font.

The filler-cap does not need to be screwed down. It is put in like a cork in a bottle, and is attached to the font by a chain.

The burner body or gallery cannot become wedged, because of a new device in construction, and consequently, it can always be easily unscrewed in an instant for reworking. The Perfection Oil Heater is strong, durable, well made, built for service, yet light and ornamental.

Woman's Power Over Man

Women's most glorious endowment is the power to awaken and hold the pure and honest love of a worthy man. When she loses it and still loves on, no one in the wide world can know the heart agony she endures. The woman who suffers from weakness and derangement of her special womanly organism soon loses the power to sway the heart of a man. Her general health suffers and she loses her good looks, her attractiveness, her amiability and her power and prestige as a woman. Dr. R. V. Pierce, of Buffalo, N. Y., with the assistance of his staff of able physicians, has prescribed for and cured many thousands of women. He has devised a successful remedy for women's ailments. It is known as Dr. Pierce's Favorite Prescription. It is a positive specific for the weaknesses and disorders peculiar to women. It purifies, regulates, strengthens and heals. Medicine dealers sell it. No honest dealer will advise you to accept a substitute in order to make a little larger profit.

SICK WOMEN WELL.**

FREE SAMPLE OF LAXATIVE CURED THEIR CONSTIPATION

When a person has become discouraged through years of failure to find a cure, and finally, perhaps, gives up trying, it is small wonder that he becomes skeptical. And yet, to all who have constipation, we would say, "Try just one sample bottle."

We wish you would try Dr. Caldwell's Syrup Pepsin, a laxative tonic that has been used by a generation. Thousands are using it; surely some of your friends among the number. You can buy it of any druggist at fifty cents and one dollar a bottle, but better still, send your name and address to Dr. Caldwell for a sample bottle. He will send you enough to convince you of its merits, and then if you like it you can buy it of your druggist. Mr. J. J. Petty of Unionville, Mo.; Mr. George W. Zimmerman of Harrisburg, Pa.; and many others of both sexes and in all parts of the country first

used a sample bottle and now have it regularly in the house.

You will learn to do away with salts, waters and cathartics for these are but temporary reliefs while Dr. Caldwell's Syrup Pepsin is guaranteed to cure per-

manently. It will train your stomach and bowels muscles so that they will do their work again naturally without outside aid. Cast aside your skepticism and try Syrup Pepsin.

Dr. Caldwell does not feel that the purchase of his remedy ends his obligation. He has specialized in stomach, liver and bowel diseases for over forty years and will be pleased to give the reader any advice on the subject free of charge. All are welcome to write him. Whether for the medical advice or the free sample address him Dr. W. B. Caldwell, 541 Caldwell building, Monticello, Ill.

LICKING COUNTY BOY PRIVATE SECRETARY TO COL. JOHN JACOB ASTOR

William Dobbyn, private secretary to John Jacob Astor, is in the city today, visiting with his old schoolmate and friend, Assistant Postmaster S. E. Seigfried.

Mr. Dobbyn will spend two weeks visiting in the county with friends. He is an old Licking county boy, being a resident of Croton where his parents also resided. Six years ago he was a district school teacher, but he gave up his position of teacher of young minds to go to Columbus and receive a business education. In the course of events James K. Hackett went to Columbus to fill an engagement at the Southern theatre and while in the Capital city his private secretary left him suddenly. Mr. Dobbyn became acquainted with the fact and at once applied for the position and was accepted. He remained in the employ of Mr. Hackett for about three years and then was offered the position of private secretary to Mr. Astor, since which time he has been with him in New York City, at an increase of almost fifteen times the salary he secured for his services in the little school house in the northwestern part of the county.

Although Mr. Dobbyn has only been here once since he met with his good fortune, he still has a fondness for the home of his childhood and is pleased to again see the old familiar scenes and the faces of old friends. Shortly after Mr. Dobbyn went into the employ of Mr. Astor, his father died in Croton, and since then his mother, Mrs. Hannah Dobbyn, has been enjoying home life with him in the metropolis.

Archaeologists In Search of Specimens Visit Flint Ridge

Flint Ridge, that most romantic territory in Licking county around which so much romance clusters, is the mecca for archaeologists just at present, the men desiring to make explorations in the hope of finding prehistoric relics. One of the latest parties was from Columbus, those in the party being Dr. W. C. Mills, curator of the Ohio State Historical and Archaeological Society, and one of the foremost archaeologists in the county, Hon. E. O. Randall and L. P. Schaus. They came over to Newark and from this place drove to the ridge in an auto, where they spent a whole day hunting for specimens. The prehistoric relic hunters expressed themselves as being well satisfied with their excursion, and they will probably make more trips to that region in the near future.

CONFERENCE OF ENDEAVORERS AT COLUMBUS, NOV. 18-19

Last year the plan was put in operation to have a conference of county officers and Endeavorers once a year, the meeting to be held in Columbus, and nearly 60 counties were represented. This year the Endeavorers will have the pleasure of hearing Dr. Wm. Shaw, general secretary of the World C. E. Union, and a man who knows as much about C. E. work in all its phases as any living. He has a wonderfully magnetic personality and is a favorite at state convocations from Maine to California and from Canada to South America, and he has been to them all. Besides Dr. Shaw, there will be practical conferences Friday afternoon and Saturday morning, with the popular meetings in the evening. The meetings will be held in the Broad Street Church of Christ. Anyone is invited to attend these meetings, and the county and society officers are strongly urged to do so.

had great sympathy for the fellow-countrymen of Jesus who, failing to understand him, caused his executioners to consider him a menace to their intentions. His wonderful works, recorded in the words of life, of which the public declared, "Man spake like this man," and which bore witness to his divine personality, were really incongruous with his attitude of demeanor. In claiming to be the Messiah, not claiming to be his own Master, as some now teach, but on the contrary, declaring, "My Father is greater than I," he nevertheless claimed a special relationship to God, and this was demonstrated by such miracles as the raising of the dead. Had he done these things as a member of one of the popular sects of his day, he would have been revered. Had he done them in with the Pharisees and Sadducees, and at their interpreting the Law, they would have been received in an unhesitating manner for themselves, he would have received much honor from the people and the poor, the learned and the ignorant. But he antagonized all these things by his humility in mingling with the people, accepting some of them as his special disciples and sending others out as his representatives. He especially braided him as foolish because of the worldly-wise. This was a discredit to him, not only as a man, but as a teacher, but particularly as a Messiah, who claimed to be the Messiah, the Son of glory who was to set up a kingdom on earth.

Newark sportsmen have been getting in training for this day for the past several weeks, and many of them were on their favorite hunting ground as early as last Saturday. But the great exodus of hunters and dogs from the city occurred Monday evening and Tuesday morning, and it is estimated that several thousand hunters from the various parts of the county are scouring the fields and woods on the opening day of the season. In order to have one idea of the number of hunters engaged in the sport it is unnecessary to state that the first car leaving for Granville Tuesday morning carried 21 men, together with their dogs and arms. The second car had eight and the third car carried 13 men. The fourth car for the west carried on board 100 shooters while the first three cars for the east carried as many as 150 men.

BAD BREAK AT CITY WATER WORKS PUMPING STATION

The Advocate learned yesterday from an official source, that a bad break had occurred at the city water works pumping station on Saturday night. But the real nature of it could not be learned, for the reason that the Director of Service would not give out any intelligent information. He characterized it as a "crack in a small pipe" that was of no consequence. It was learned today, however, that the trouble was the bursting of the large discharge pipe, or tea, at pump number 2.

It is what is known as a flange pipe and is 24 inches in diameter. The accident puts pump number 2 entirely out of commission, and it took considerable work to disconnect the break from pump number 1, so that it could be operated and made to do the required service. Only one pump will now be in commission at the city pumping station until the necessary repair can be made.

The break is so serious that a new casting will have to be made and this will take considerable time, for the Platt Iron Works at Dayton, where the pumps were made, is not a concern that is sufficiently equipped to make repairs of this kind on short notice.
